

**The 12th Kinneret Conference and Exhibition
on Water Engineering and Innovation
10–11 November 2026
Kinneret College, Zemach, Israel**

Call for Abstracts

The Kinneret Academic College and Water Innovation Community (WaterEdge.IL) are pleased to continue the long-standing tradition of the annual professional water conferences. Over the years, the “Kinneret Conference” has become a leading event for Israel’s water sector, serving as a platform for knowledge sharing, professional exchange, and innovation.

The conference and exhibition will be an international two-day event, held on **10–11 November 2026** on the shores of the Sea of Galilee, at **Beit Gabriel, Zemach, Israel**.

The conference will feature innovative technologies, applied research, case studies, and keynote lectures by leading experts from Israel and abroad. Topics will be discussed in dedicated sessions as follows:

- Wastewater, Reuse and Sludge Treatment (in English)
- Water Quality and Desalination (in English)
- Physical Infrastructure and Engineering Design (in Hebrew)
- Digital Infrastructure and AI Applications (in English)
- Sustainability, Hydrology and Water Resources Management (in Hebrew)
- Water Security, Cyber and Emergency Preparedness (in English)

Authors are invited to submit abstracts in accordance with the language designated for each session. Submissions should be prepared as a Word document, including up to 400 words describing the project, research, or technology and its integration into existing systems, where relevant. Abstracts should address the background and rationale, objectives, innovation and contribution, methodology, key findings, future applications, and relevant environmental and economic aspects. Submitted abstracts must not contain explicit commercial content.

Abstracts must be submitted via this [LINK](#) no later than 7 September 2026.

All abstracts will undergo review by the conference scientific committee, based on originality, professional relevance, innovation, technical quality, and suitability.

Join us in advancing innovation, knowledge exchange, and collaboration to address current and future water challenges. We look forward to welcoming you to the 12th Kinneret Conference and Exhibition on Water Engineering and Innovation.

Best Regards,

The 12th Kinneret Conference and Exhibition Steering Committee
